“To create jobs, wealth and business as national priorities”

VISION

“To facilitate a platform for a budding entrepreneur to start a business venture with minimum risks.”

MISSION

“To nurture and empower the next-generation entrepreneurs to serve the local problems”

MIET Incubation Forum (MIF) is a Sec.8 company focusing on providing platform and support to the budding entrepreneurs.

MIF consist of network of experienced academicians, founders, mentors, and team members with aim to mold, shape, and provide the right opportunities to young talent with technological goals, investors, and mentor pool.

MIET INCUBATION FORUM RECOGNIZED BY

INCUBATION FACILITIES

FACILITIES PROVIDED BY MIET INCUBATION FORUM

○ Digital Marketing

○ Mentoring Support

○ GEM portal Training

○ Funding Opportunities

○ 360° Support for Business

○ Website development Facility

○ Patent and Trademark Facility

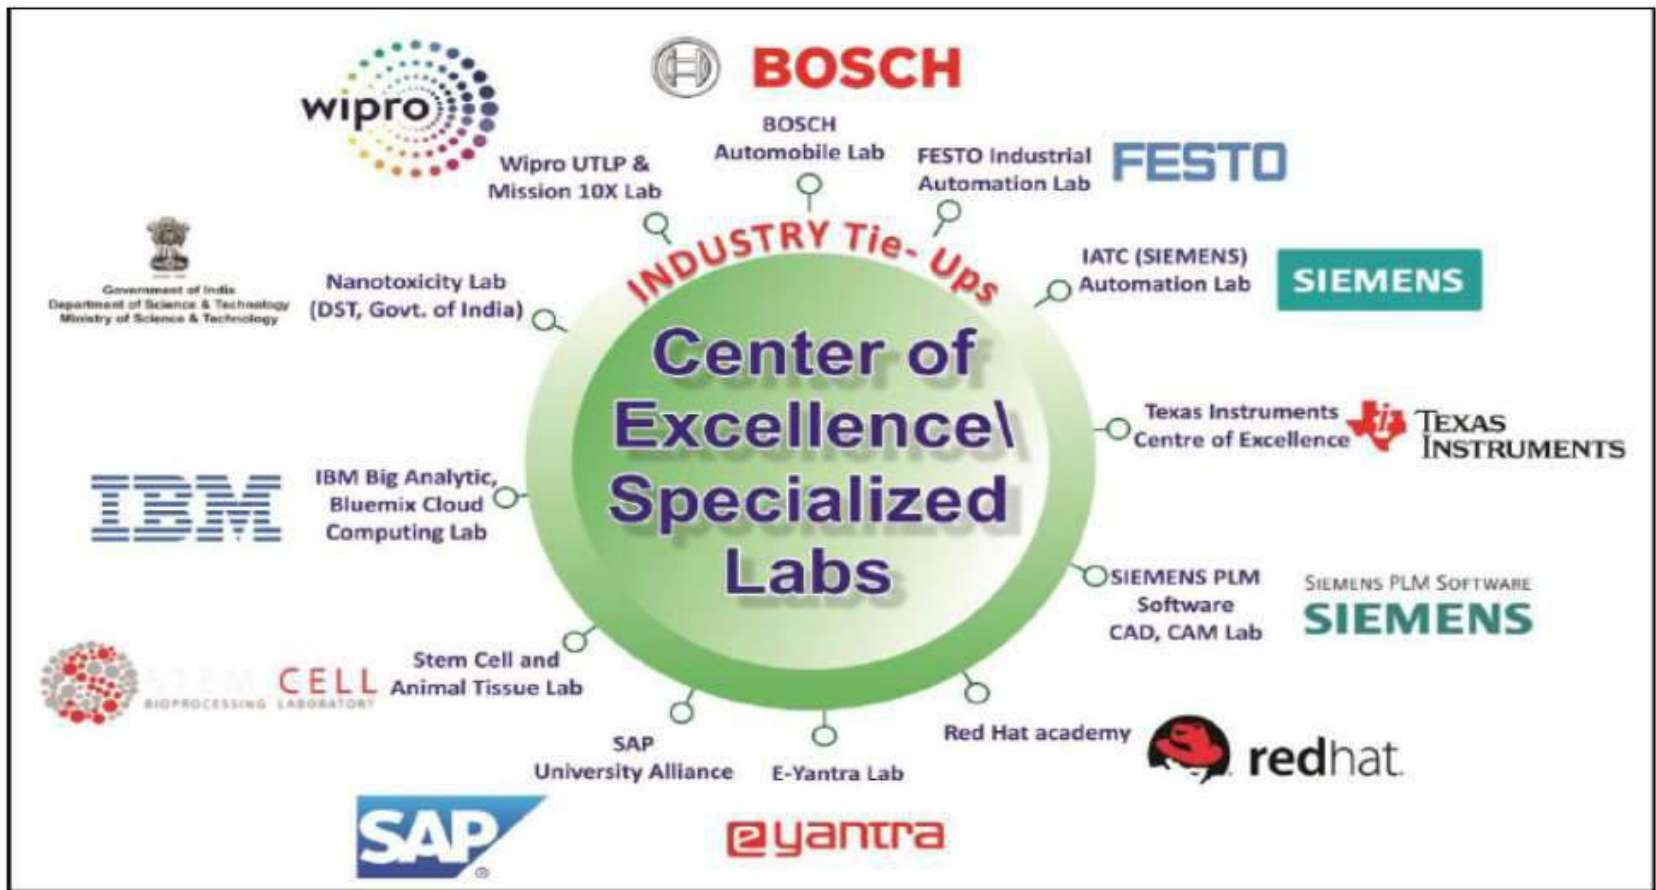

○ Computers with personal Almiraah , Conference Room and separate meeting room.

○ 24 hrs Internet and Electricity Facility

○ Company Registration and GST Facility.

- Additionally, the Incubation Centre is associated with Meerut Institute of Engineering and Technology, Meerut (UP), with Centre of Excellence Laboratory Facility, with almost all the instruments available under one shade.
- **The Institute at present has facilities as listed below:**

- i. Automobile Workshop in collaboration with BOSCH.
- ii. First Industrial Automation Lab in North India in association with FESTO India Pvt. Ltd.
- iii. Automation Lab in association with IATC (SIEMENS) to provide trainings and research work on PLC, Drives, Switchgears, HMI & SCADA.
- iv. MIET has collaborated with IBM, to provide detailed and competitive trainings to the students, over IBM's products.
- v. UTLP (Unified Technology Learning Platform) Lab is established by WIPRO.
- vi. Embedded System Design Lab and Linear Integrated Circuit Lab have been established in association with Texas Instruments which trains students on MSP 430 microcontroller

- DESIGN, DIES AND DEVELOPMENT (3D) ROOMS AND COMMON FACILITY LABS

Screen Printing

Screen printing setups are utilized for solder mask coating of printed circuit boards (PCBs), ensuring precise application of protective layers. This process enhances PCB durability, electrical insulation, and solderability, crucial for reliable electronic assemblies. Screen printing technology enables efficient and consistent deposition of solder mask materials, optimizing manufacturing quality.

Modular Production System with 3-Station- Festo Lab

The training setup of a modular production system with three stations provides innovators with hands-on experience in designing, assembling, and optimizing manufacturing processes. This system facilitates learning in areas such as workflow optimization, resource allocation, and production scalability, empowering innovators to develop efficient and adaptable manufacturing solutions.

Pipe Bending machine

Pipe bending machines are crucial in creating precision bends in pipes for various applications, including plumbing, construction, and automotive industries. They enhance efficiency, reduce manual labor, and ensure accuracy in bending.
Specification: Pipe diameter Range=1/2" to 3" inch
Operation=Hand operated.
Power=Hydraulic power

Lathe Machine in Fabrication Section

Lathe Machine used in machining and metalworking processes and play a crucial role in creating cylindrical parts with precision.

CO2 Laser Cutting & Engraving Machine

CO2 laser cutting machines employ high-power lasers to cut and engrave materials with precision. Widely used in industries for fabricating intricate designs in MDF, wood, acrylic, and other materials.
Specification:
Bed Size=4*3 Ft
Laser Head=2, 150W
controller=RDWorks
Motor=Leadshine Servo

Universal Testing Machine UTM :

Universal Testing Machine determines material properties like tensile strength and elongation by subjecting samples to controlled tension, compression, or bending. Essential in quality control and material research across industries.
Specification:
Capacity: 400KN
Gauge length: 30 to 120mm

Fiber Laser PCB Milling Machine

Fiber laser PCB etching machines utilize high-powered laser beams to precisely remove unwanted copper layers from printed circuit boards (PCBs). This process enables accurate and intricate circuit patterning, facilitating the production of high-quality PCBs with fine features, reducing production time, and enhancing overall manufacturing efficiency in electronics industry.

Rapid Prototyping Lab

FDM 3D Printer

3D printing revolutionizes manufacturing by creating three-dimensional objects from digital models. It finds applications in various industries, including aerospace, automotive, healthcare, and fashion, enabling rapid prototyping, custom manufacturing, and on-demand production of complex geometries. This technology enhances efficiency, reduces waste, and facilitates innovation across diverse sectors.

Specification: 3D printing of maximum Component size 300*300*400mm. All Plastic material like (PLA, ABS, PC, PT, Carbon Fiber etc.) can be printed.

दूसरी आधारशिला तैयार, सीडीओ ने बच्चों का बढ़ाया उत्साह

जगरण संवाददाता, मेरठ: परिषदीय विद्यालयों के बच्चों के होसले को उड़ान देने के लिए मेरठ की दूसरी आधारशिला लैब बनकर तैयार हो गई है। यह लैब उच्च प्राथमिक विद्यालय मोहिउद्दीनपुर में बनी है। इसका विधिवत शुभारंभ बुधवार को मुख्य विकास अधिकारी शरदक चौधरी ने किया।

उन्होंने बच्चों को नई राष्ट्रीय शिक्षा नीति की अपेक्षओं पर खरा उतरने के लिए प्रेरित किया। इसके चलत तकनीकी और विज्ञान की अवधारणाओं को व्यवहारिक रूप से करके सीखने के लिए प्रेरित किया। इस लैब में गणित, भौतिक विज्ञान, रसायन विज्ञान, जीव

EXTRA MILE

(AN AUTOMOBILE DOORSTEP SERVICE STATION)

DATE: 24 JUNE 2021

SUBJECT: INTERNSHIP OFFER LETTER (EXTRA MILE)

DEAR, **DHANANJAY**

We would like to officially invite you for an internship for 3 months (including 7-10 days of trial period). You will be working as **DOORSTEP MARKETER**.

Your date of Joining is **28 JUNE 2021**.

However, you will be entitled for a Certificate from EXTRA MILE, once you complete your 3-month internship with us.

Benefits to interns:

- Internship Certificate on Completion with Scientific Rating system
- In Between Achievement Awards (if Achieved by Candidate)
- Learning & Development Certification (if Applicable)
- Mostly Remote Work/ Semi-Remote work culture
- 6 Days a Week
- paid Scale is 2.5k per month and increment depends on the performance of candidate by 5% to 10%.

Kindly send us a signed copy of the same within 24 hours of receiving this letter.

"जानकारी के अभाव में ग्रामीण महिलाओं को इनक्यूबेशन का फायदा नहीं मिल रहा था। कार्यक्रम में मिली जानकारी से महिलाओं को लाभ मिलेगा और उन्हें आत्मनिर्भर बनने में सहायता मिलेगी। ऐसे कार्यक्रमों से महिलाओं में जागरूकता बढ़ती है।"

रहान अहमद, मैनेजर एमआईटी इनक्यूबेशन फोरम

TESTIMONIALS

“
